

GREETINGS FROM THE CHAIR

The sustainability of this exemplary organization, which began under the auspices of the High Commissioner in the 1970s, is due to the rich heritage of the remarkable members who are committed to the ethos of *Promoting British Business to the Highest Standards*.

Whilst my tenure as Chair has been recent, the wealth of history shared by members and the strong sense of community during uncertain times, from episodes of social unrest to the most recent pandemic, guarantees the British Business Group *Thrives* as a place of connection and engagement in business and in everyday existence.

The agility of the British Business Group from the British Businessmen's Group is a testament of its understanding of the significance of change in the workplace and society as we strive to embrace and acknowledge the rich contributions of diversity and inclusion in our business enterprises as well as the dynamism of our adopted home...Nigeria.

We strive for a community of belonging which is a representation of the global business ecosystem as well as our adherence to the sound business ethics of the United Kingdom as we contribute to the investment, trade and development between our two countries with gratitude to our host country, Nigeria, for the opportunities presented to our members.

We are grateful to all in attendance, and members of the community, who have joined us on this special day to remember the essence of our longevity and the most important asset of a business ...*the people*. We are, after all, people embarking and utilising our business platforms to inform, network and innovate whilst creating a legacy which endures for another fifty years.

Congratulations to the British Business Group - Nigeria

Dr. Ama
Chair, British Business Group - Nigeria

Celebrating our 5th decade
